

19 January 2026

Dear Parents and Carers,

We are writing to inform you about the upcoming construction project at Springfield School, which forms part of the delivery of the new school facilities.

From 26 January 2026, we will be on site carrying out surveys, installing site hoarding, and undertaking works in collaboration with the statutory authorities (power, gas and water). These early activities are required to discharge planning conditions ahead of the main construction phase.

The main construction works are planned to commence on 2 March 2026.

We recognise the importance of clear communication with the school community. Further information will be shared via the school's website and newsletters as the project progresses.

Our team will be on site during these works and will work closely with the school.

We kindly remind parents and carers that construction sites can be hazardous and should not be accessed by members of the public.

Thank you for your understanding and support as we carry out these works.

Yours sincerely,

The Kier Project Team
