

16 January 2026

Dear Neighbour of Springfield School,

We are writing to let you know about the upcoming Department for Education commissioned construction project at Springfield School and to ensure you, as immediate neighbours, are the first to hear about the works before wider communication takes place via our newsletter and the school's website.

From 26 January 2026, we will be on site carrying out surveys, installing site hoarding, and undertaking works in collaboration with the statutory authorities (power, gas and water) to support the delivery of the new school. These early activities are required to discharge planning conditions.

The main construction works are planned to commence on 2 March 2026.

This letter is intended as an early notification for those closest to the site. Further information will be shared with the wider community in due course. We are in the process of developing a project website to provide regular updates, and details will be shared once it is live.

Our team will be on site during these works. If you have any questions or concerns, please speak to us directly.

Thank you for your understanding and support, and please remember that construction sites can be hazardous and should not be accessed at any time.

Yours sincerely,

The Kier Project Team
